

Expanded RFID Portfolio for Pre-Tagged, Ready-to-Administer Injectables

Powered by GS1 Standards

From intake into inventory, all the way through administration at the patient level, the critical information you need at your fingertips

- Leveraging GS1's technology agnostic global standards unlocks instant compatibility with medication management platforms and other RFID supported technologies that read GS1 RFID labels, including:
 - IntelliGuard™
 - AmerisourceBergen's Medication Tray
 - Healthcare Logistics' Stat Stock™
- Drive visibility for products throughout the supply chain and inside the hospital
- Enhance safety in dispensing and administration
- Reduce manual data inputs
- Gain efficiencies in inventory management
