

Take the Pain Out of Using Ambulatory Pain Pumps!

The QuVa IV bag plus Nimbus® II PainPRO Post-Op Pain Pump Solution:

- ✓ Uses QuVa's standard IV bags and eliminates labor-intensive filling of pain pumps and the extra cost of sourcing prefilled pumps
- ✓ Is portable and compact. The pump and QuVa IV bag fit conveniently in a carrying case -- allowing patients to be comfortable and mobile post-surgery
- ✓ Meets ISMP infusion pump safety Best Practice 8D for infusion mode hard limits
- ✓ Offers patients a PCA demand bolus button avoiding titration of basal rate for pain
- ✓ Auto Bolus mode: increases patient satisfaction, decreases post-op opioid use, and extends duration
- ✓ Delay Start extends duration of analgesia

QuVa's ready-to-administer IV bags PLUS Nimbus® II PainPRO pain pumps are an ideal combination for post-op ambulatory pain management
