

Innovative, Two-Sided Labels for IV Bag Compounded Sterile Products

Developed to reduce medication errors and improve patient safety

- Two-sided label makes important product information visible from both sides of the IV bag
- Enables clear visual inspection of the product given backside of IV bag is not obstructed with a label
- Developed in consultation with customers to meet ISMP’s 2022 best practice recommendations
- We will continue to release our enhanced two-sided labels onto all QuVa bags throughout 2023

Please see the example below of the two-sided label on our oxytocin 500 ml IV bag.

High alert bags transitioned to two-sided labels. *Full product list on the back.*
